

2014 Summer Term Opportunities for Undergraduates and Visiting Faculty – Office of Science Sponsored Programs at DOE Laboratories

- **Opportunities include 10-week paid internships for undergraduates currently seeking Associate or Bachelor degrees in STEM fields, and 10-week paid visitor appointments for full-time STEM faculty at institutions historically not part of the DOE enterprise**
- **Gain hands-on experience and professional development skills while working with DOE laboratory scientists and engineers in broad areas of science, technology, engineering, and mathematics (STEM) on projects supporting the DOE mission**
- **Your choice of DOE laboratory; includes paid travel**
- **Single application process (per each program described below)**

The [Science Undergraduate Laboratory Internships \(SULI\)](#) program goal is to encourage undergraduate students (including community college students) to enter STEM careers especially relevant to the DOE mission by providing research experiences at DOE host laboratories. The SULI program places undergraduate students in paid internships in science and engineering research activities at DOE laboratories, working under the direction of laboratory staff scientists or engineers on projects related to ongoing research programs. Appointments are for 10 weeks during the summer term and 16 weeks during the fall and spring terms.

The [Community College Internships \(CCI\)](#) program goal is to encourage community college students to pursue technical careers relevant to the DOE mission by providing technical training experiences at DOE host laboratories. The CCI program places students in paid internships in technologies supporting laboratory work under the direction of a laboratory technician or researcher. Appointments are for 10 weeks during the summer term.

The [Visiting Faculty Program \(VFP\)](#) goal is to increase the research competitiveness of faculty members and their students at institutions historically underrepresented in the research community in order to expand the workforce that addresses DOE mission areas. Through direct collaboration with research staff at DOE host laboratories, VFP appointments provide an opportunity for faculty (*and their invited students, optional*) to develop skills applicable to programs at their home institutions; this helps increase the STEM workforce in DOE science mission areas at institutions historically not part of the DOE enterprise. Appointments are for 10 weeks during the summer term.

The SULI, CCI, and VFP programs are now accepting applications for the 2014 Summer Term. Applications are due 5:00 PM ET Friday, January 10, 2014.

Webinar – Thursday, Nov. 21st, 3:00 – 4:30 PM, ET

This webinar will provide an overview of the [Office of Workforce Development for Teachers and Scientists](#) / [Office of Science](#) sponsored activities for undergraduates (SULI, CCI, &VFP) and visiting faculty (VFP), including detailed information on the opportunities, the eligibility requirements, on how to apply, the deadlines and other key dates, the selection process, and on participant obligations.

Questions and comments related to the webinar content will not be addressed during the live sessions. Rather, please address any questions or comments, both prior to and following the webinar, to sc.suli@science.doe.gov; sc.cci@science.doe.gov; or sc.vfp@science.doe.gov; and include “2014 Summer Term webinar” in the email message subject line.

Additionally, this webinar will be recorded and posted following the live session. Links to the recorded content and presentation materials will be posted at science.energy.gov/wdts/outreach (under Webinar - "2014 Summer Term Opportunities for Undergraduates and Visiting Faculty – Office of Science Sponsored Programs at DOE Laboratories") enabling on-demand viewing opportunities.

To attend the live webinar, please click [here](#), and enter as a guest. Please also see additional information and instructions below:

Meeting Information for Attendees - Thursday, Nov. 21st, 3:00 – 4:30 PM, ET

Meeting Name	2014 Summer Term Opportunities for Undergraduates and Visiting Faculty – Office of Science Sponsored Programs at DOE Laboratories
Date/Time	Thursday, November 21 st from 3:00- 4:30 PM, ET
URL for Event	http://orau.adobeconnect.com/wdts2014summer/
Audio	Audio will be shared using Voice over Data (VoIP), and requires speakers or audio capability on an attendee’s device. If you cannot hear the audio through your computer speakers, please email ORAUVirtualMeetings@orau.org for assistance.
Limitations	Meeting Room Limit: 200 attendees per session

Detailed Webinar Log-In Instructions

Date/Time: Nov. 21 @ 3:00 PM ET

Instructions for viewing the webinar from your computer:

Preparation: Please complete a simple diagnostic test [here](#) to ensure you meet all technical requirements (The Adobe Add-On is required only by presenters).

Before the meeting, please ensure you have the following:

- Headphones or computer speakers for listening to meeting audio
- Adobe® Flash® Player 11.2 or higher

To Join the Meeting:

1. Go to: <http://orau.adobeconnect.com/wdts2014summer/>
2. Select **Enter as a Guest**
3. Enter your full name
4. Click **Enter Room**
5. Once the webinar begins, you will be able to hear the meeting audio through your headphones/computer speakers
6. To leave the meeting, simply close the Adobe Connect Meeting window

Instructions for viewing the webinar from your mobile device:

Preparation: Please install the free Adobe Connect app for your [Apple](#) or [Android](#) device

To Join the Meeting:

7. Open the Adobe Connect app
8. Enter meeting URL: <http://orau.adobeconnect.com/wdts2014summer/>
9. Click **Next**
10. Select **Guest**
11. Enter your full name
12. Click **Enter**
13. Once the meeting begins, you will be able to hear the meeting audio through your smartphone/tablet speakers or headphones
14. To leave the meeting, simply **Log Out**
